WEDNESDAY, OCT 11 - 1906

We are authorized to announce Mr. Frank Leslie Russell, of Kentucky, as a candidate for Governor, to succeed himself, in the next Magisterial District, subject to action of Democratic party.

A WOMAN'S club in Chicago a few days ago in solemn session assembled took a fling at that beautiful prayer which has been taught—prayer beginning, "Now I lay me." The Chicago women said that prayer frightened children, that its reference to dying during the night gave them a creepy, frightened feeling and should be cut out. That's what the women of the Windy City said about it. Those church workers must have been out of anything to say. That child's prayer, until those Chicago women jumped into it, was supposed to be the one unaltered treasure of childhood. In the year 1867 Rev. Vane delivered an address in Raleigh and here is what he said about that prayer. "Caesar and Cleopatra are known to be heathens. Luther and Wesley are known to be good men and good women. Shakespeare is read and admired by millions of human souls. The sublime song of the Paradise Lost may be read by the million. The hymns of the Churchyard are forgotten, but the North Star, shining to guide the pilots of the sea, shining to guide the Constellation of the Cross beyond the everlasting ice of the Pole and the Bedouin of the desert shall halt his camels upon the disintegrated dust of the loftiest pyramid, or little children in every part of the wide earth shall cease to respect, before going to rest, that simple prayer of some forgotten Christian poet.

"Now I lay me down to sleep,
I pray the Lord my soul to keep."
—Harrodsburg Herald.

"What a beautiful month is our October, when summer slowly yields to the coming breath of winter. The October sun warms but does not burn; the October wind stirs the blood but does not chill; not all the birds are gone, not all the leaves have fallen, and field and orchard still suggest the season of fruit. Let us ask Mother Nature in her October mood to fill us with new vigor of mind and body, to give us new ideas as to life and our duties, and to prepare us for the long days soon to come when the gloom of winter has settled over field and forest. But we must not to Nature, and by our own efforts take of her strengthening life."

The illustrated historical supplement to the *Bourbon News* made its appearance with the issue of October 3rd. We congratulate Editor Champ and his assistants upon their business push, as well as being proprietors of a paper in such a town as Paris, as beautifully portrayed in this supplement. It is a work to be proud of and well worth preserving.

"Reggie" Vanderbilt and his retinue of servants were the whole show at the Louisville horse show last week. They occupied eight rooms at the Seelbach hotel and Louisville society nearly broke its neck trying to get in with a member of New York's real "400."

SO FAR as we remember all the Republican papers in the State are in favor of retaining the secret ballot. Another pretty good reason why Democrats should vote for the open ballot.

At a recent meeting of the City Council it was decided by that body to submit to the voters of Richmond, the question of voting \$10,000 bonds for the erection of a new city hall. It seems almost useless to impress upon our citizens the extreme need of such a building. Rather would we have them go down and examine the old structure as it now stands, dilapidated, long since condemned, and wholly inadequate to supply the needs required of it. Only lately did our Police Judge have to remove his office to rooms in the Oldham building. The city hall building, rickety and old, is really a menace to the safety of all who gather there to transact the city's business. Regularly do they place their lives in jeopardy. A continued usage of this building will result in severe injury or death to some one, which will result in suits that will cost the city more money than to erect the proposed building. In addition to this, Richmond is fast becoming a city of handsome building, public and private, and to such we, as citizens, point with pride; but our feathers fall when we reach our city hall, a shame to our town. This question of voting bonds will come up at the approaching November election, and we urge upon our citizens, in the name of Richmond's pride and in the name of nothing more, to consider this question in the affirmative.

UNTIL THE millennium has spread the wings of universal peace over this earth and the lion and the lamb lie down together, people will quarrel, fight and kill; but the shooting affrays that occurred this week in our adjoining counties and caused the death of two of the Commonwealth's respected citizens leaving heartbroken widows and orphan children to mourn their loss, brings forcibly before the people of this section the prevalence of the cowardly and criminal practice of carrying concealed weapons. No man will carry a pistol unless he is bent upon a violation of the law, or is afraid of some one. The habit of carrying a pistol or knife will make a coward out of a brave man; he will be afraid when he is without them. Making it now a statute in this State making it a fine and imprisonment of ten days to carry concealed weapons. That is not severe enough. It should be a felony punishable with confinement in the penitentiary. Going armed is a relic of barbarism, and this State should wipe out the obnoxious practice if it has to resort to the most strenuous methods to do so. Some will say that it is necessary to carry weapons for protection. If a man has reasonable grounds to fear violence from his neighbor, he has the right to have him put under a peace bond.—Danville News.

Is less than one month the regular November election will be held and in view of this fact all Democrats should unite in renewed energy. Give your support, strong and undivided, to our Democratic nominees, especially those who have opposition. The Republicans, who are almost hopelessly in the minority in Madison county, are endeavoring to secure control of two of the most important offices in the county, that of sheriff and jailer. Should they elect a sheriff the Republican party would have the deciding vote in canvassing the election returns, and judging the future by the past, every Democrat in Madison can readily understand what such a result would mean to the Democracy of this county.

"In unity there is strength," is an adage, which is true, the world over, and it should be the desire of every true Democrat to see this thoroughly proven at the approaching election. Be true and loyal to the Democratic ticket and score a telling victory.

INSTEAD of starting up a new paper to be known as the Harrodsburg News, Mr. Owen McIntyre has purchased from Harrodsburg Herald and will continue to conduct this paper. May it always remain the same newsy sheet as heretofore.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a tea spoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

C. F. BROWER & CO

LEXINGTON, KY.

At a recent meeting of the City Council it was decided by that body to submit to the voters of Richmond, the question of voting \$10,000 bonds for the erection of a new city hall. It seems almost useless to impress upon our citizens the extreme need of such a building. Rather would we have them go down and examine the old structure as it now stands, dilapidated, long since condemned, and wholly inadequate to supply the needs required of it. Only lately did our Police Judge have to remove his office to rooms in the Oldham building. The city hall building, rickety and old, is really a menace to the safety of all who gather there to transact the city's business. Regularly do they place their lives in jeopardy. A continued usage of this building will result in severe injury or death to some one, which will result in suits that will cost the city more money than to erect the proposed building. In addition to this, Richmond is fast becoming a city of handsome building, public and private, and to such we, as citizens, point with pride; but our feathers fall when we reach our city hall, a shame to our town. This question of voting bonds will come up at the approaching November election, and we urge upon our citizens, in the name of Richmond's pride and in the name of nothing more, to consider this question in the affirmative.

UNTIL THE millennium has spread the wings of universal peace over this earth and the lion and the lamb lie down together, people will quarrel, fight and kill; but the shooting affrays that occurred this week in our adjoining counties and caused the death of two of the Commonwealth's respected citizens leaving heartbroken widows and orphan children to mourn their loss, brings forcibly before the people of this section the prevalence of the cowardly and criminal practice of carrying concealed weapons. No man will carry a pistol unless he is bent upon a violation of the law, or is afraid of some one. The habit of carrying a pistol or knife will make a coward out of a brave man; he will be afraid when he is without them. Making it now a statute in this State making it a fine and imprisonment of ten days to carry concealed weapons. That is not severe enough. It should be a felony punishable with confinement in the penitentiary. Going armed is a relic of barbarism, and this State should wipe out the obnoxious practice if it has to resort to the most strenuous methods to do so. Some will say that it is necessary to carry weapons for protection. If a man has reasonable grounds to fear violence from his neighbor, he has the right to have him put under a peace bond.—Danville News.

Is less than one month the regular November election will be held and in view of this fact all Democrats should unite in renewed energy. Give your support, strong and undivided, to our Democratic nominees, especially those who have opposition. The Republicans, who are almost hopelessly in the minority in Madison county, are endeavoring to secure control of two of the most important offices in the county, that of sheriff and jailer. Should they elect a sheriff the Republican party would have the deciding vote in canvassing the election returns, and judging the future by the past, every Democrat in Madison can readily understand what such a result would mean to the Democracy of this county.

INSTEAD of starting up a new paper to be known as the Harrodsburg News, Mr. Owen McIntyre has purchased from Harrodsburg Herald and will continue to conduct this paper. May it always remain the same newsy sheet as heretofore.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J
